Dear Sir/Madam,

Sub: Disclosure under Regulation 30(4) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended

The National Green Tribunal (“NGT”) in a hearing on April 26, 2017 in a case relating to the pollution of the river Ganga and drainage canals leading into the river Ganga, has, by way of an oral pronouncement, ordered 13 industrial units situated in Gajraula near the river Bagad to immediately cease operations. The order of the NGT applies to the Company’s units in Gajraula.

A committee has been set up by the NGT to inspect amongst other things, the discharge of effluents by the affected industrial units and to provide a report. Each industry has been given an opportunity to respond to the report with an action plan to resolve any deficits identified by the committee, in order to resume operations, within a week of submission of the report.

While a written order of the NGT is awaited, the Company will comply with the oral order of the NGT and will file its response to the report as submitted by the committee, along with an action plan to resolve deficits identified by the committee, if any, before the NGT shortly.

The Company is environmentally conscious and as a good corporate citizen, following the approach of ‘triple bottom line’ (Environmental, Economic and Social factors), has been publishing a ‘Corporate Sustainability Report’ based on the Global Reporting Initiative guidelines over a decade which is externally verified.

The Company operates its manufacturing facilities in Gajraula with zero discharge and in compliance with all applicable laws and it is confident of meeting any requirements that the NGT may prescribe and resuming operations of its industrial units at Gajraula at the earliest.

The above is for your information and records.

Thanking You,

Yours Sincerely,

For Jubilant Life Sciences Limited

Rajiv Shah
Company Secretary
